

NuTech
Paint for a perfect finish

NuFlex

Acrylic Roofing Membrane

Australian
Owned & Made

NuFlex

NuFlex is a fine particle size, wet adhesion promoted acrylic emulsion coating for cement and roof tiles and all masonry surfaces. Its technically advanced formula and 100% acrylic resin guarantees maximum durability and performance under the most adverse weather conditions. **NuFlex** is available in 46 standard colours and can be custom tinted.

NuFlex is a non-yellowing coating and will provide a waterproof, non-colour fading protective coating for a minimum of ten years with correct application and preparation..

Benefits:

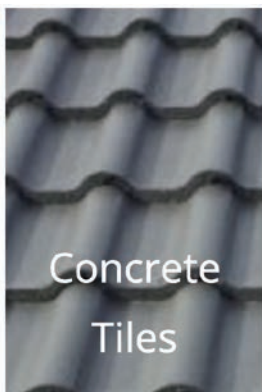

- Guaranteed inter-coat adhesion
- Excellent gloss and colour retention
- Improved mould, fungus and lichen resistance
- 100% waterproofing guaranteed
- Flexible and durable
- Fast drying
- Easy application
- UV resistant
- High build coating for porous and rough tile surfaces
